

B PROFILE
EXPLORE TOMORROW

CEO Message..

Dear Client,

The true success of **B** is through it's Team and the professional **Business Partners** who believes in our business approach, roadmap and the future objectives of what we launched and will release to the GCC & ME market.

We realize that **our Teams** with **Client's Teams** must engage together to drive the business forward to achieve **Sustainable Success** and this is what we **discovered in our contract renewals continuation**. This was the reason, why we insisted to focus on recruiting pro leaders, managing our staff capabilities and choose international partners to earn higher satisfaction levels. Therefore, we develop our **human resources & after-sale services** to keep **B as an optimum choice**.

Dealing with professionalism under our strategic action plan **raises the level of confidence** in dealing with us day after day by applying the **Projects Portal** systems that enables our clients to **follow up their projects progress remotely** to become effective & **transparency**.

Today.. We Have Become a Serious Influencers.

Yours Truly,

Bader Nasser Al-Qaoud

CEO & Founder

:01

B Firm..

Since 2007, we are growing through creativity and innovation that benefited our clients.

Explore Tomorrow..

Bus3s is a Kuwaiti company, established in **2007** with a fixed capital of almost one million USD and operation capital of six million USD. It undertakes all admin policies, financial dealings, and investments in accordance with international standards law within the limitations of Islamic law.

We provide a specifics services, solutions and products for **IT PROJECT MANAGEMENT & HUMAN RESOURCES** to **facilitate & support** our clients business environment by **our approach** of providing **Products & Services Provider As A Solution** through below units:

1. Smart Business Devices Provider:

1. Provider of Smart **POS & Payment Terminals with Peripherals** - Global Brands..

SINCE 2007

Latest Developments

B Quick View..

For more than 18 years, we continued innovating & developing our **services** & **business products**, building **professional teams** and attracting **specialized business partners** and high-quality brands with the aim of raising our clients' performance and reducing their costs. **Therefore**, we strive to provide **advanced & applicable solutions** that suit the client's environment, and **globally proven products** to reduce development risks.

2022 We have made our **dealings easier** by launching **Financial Services System** that supports the development of **Bus3s client's projects** and matches the capabilities level of **Customer's & Resellers**. As follows:

1. **Financial Facilities** - Project Support Services..
2. **Reseller Program Services** - Business Dealings..

2025, we upgraded our workshop to a **Specialized Maintenance Service Center**, offering **third-party maintenance** services under the name **BFastTrack**, reflecting our high level of service.

SINCE 2007

B Management Team..

We are proud of having **selected professional team**, and we did not hesitate to expand the experience or number of teams member that has always enabled us to successfully manage this scale of projects.

The current B team has significant experience in our industries and has served numerous clients across various industries and provide **“Best Practices”** for developing workable solutions.

Therefore, we have included in our investment policy the most important element, which is “project implementation resources” led by professionals.

Each B member has vast authority whatever it cost us, to reach excellent business delivery.

Quality Responsibility..

It is the corporate management's responsibility of Quality, Health, Safety, and the Environment. Therefore, **B** is committed to *the future vision* for post-COVID-19 to delivering professional products and supporting services of high quality to meet our clients' requirements in an environmentally acceptable, inherently safe, and sustainable manner to be *working without infection*.

The background of the right side of the slide is a composite image. It features a blue-tinted landscape with a dirt road leading into the distance, flanked by fields. In the foreground, there are blurred silhouettes of people's hands and arms, suggesting a crowd or a group of people. Overlaid on this is a large, semi-transparent rectangle containing the text 'Quality Policy' and the 'B' logo. In the top right corner, there is a grid of small, light blue characters including letters (S, B, U, X, >) and mathematical symbols (+, -, >).

Wavetec
PARTNER
Products Categories

Wavetec's fully integrated self service platform, complete with modular hardware, sophisticated middleware and a telemetry platform, promises market-leading flexibility and customization to self service projects for telecoms worldwide.

Custom-made Solutions Telecom SIM Dispensing Kiosk

**Help Your Business Grow With the
World Leading Solutions Provider**

- 24/7 Self-service operational
- Integrate with Mobile Apps and wallets
- Reduction in staff operational cost
- Sim dispensing within 2 minutes
- Increased sales network coverage
- KYC Integration
- Telco specific UI's with multilingual functionalities
- Manages real-time customer feedback from a central point

Queuing Displays

Our Queuing Displays shows the number of waiting customers, line length, waiting time, multiple services and dynamic messages to ensure a seamless experience every time a customer visits your branch.

Features

- ▶ High contrast and wide viewing angle
- ▶ Low power usage
- ▶ Long, trouble-free service life
- ▶ Built-in intelligence and memory
- ▶ Available in multiple colors
- ▶ Lightweight and easy to install
- ▶ Flexible fonts and character display
- ▶ Customizable screen templates

Digital Receptionists

Designed for on-premise deployment, our modular, stand-alone kiosks organize queues and provides valuable management information. Our ticket dispenser kiosk is an easy to install solution that streamlines your service areas as per your requirement.

Digital Signage

Keep your customers and visitors informed, educated and engaged in your retail branch.

Our digital signage solution gives you an opportunity to interact with your customers when they are seated in the waiting area.

The System Can also be seamlessly integrated with our queue management system, allowing customers to see queue information in real-time.

Benefits:

- Keep customers updated on their status
- Reduce the number of reception staff required
- Added revenue through targeted advertising
- Stream live videos & Television through Donatello
- Share upcoming events and new product promotions
- Source of engaging with customers through personalized messages
- Deliver real-time information such as important announcements and alerts

Teller Calling Terminals

Client Terminal allows you to serve, call and identify customers in one easy-to-use interface. It has all the functions and features you need to provide good customer service at the click of a mouse

Turn your
Teller into
sellers!

Features:

- User Interactive Layout
- Multiple methods of calling
- Customer information display
- Record transactions
- Transfer of teller, category or counter
- Next, Repeat, Random Call, Local Wait, No Show, Auto-Next
- Sub-Categories Selection
- User, Category and Counter Transfer
- Multiple Profile
- User Based Profile
- Counter Based Profile
- Stand-alone unit (desktop PC is not required)

Mobile Queuing

Mobile-Q is the future of queuing as it aims to eliminate the pain of waiting and allows the ease of entering a virtual queue via mobile app. With Wavetec's queuing app, you can enable your customers to choose their desired service branch, get directions, receive SMS / WhatsApp text message notifications and take ticket before they arrive.

Customer Feedback

With your insightful feedback, we can together offer a better customer experience.

Are you curious to know whether your service met your customer's expectations?

Then find out by simply asking your customers and analyzing their thoughts so you can enhance the quality of our products and services.

With our Customer Feedback solution, your customers can rate their visit as soon as they are done. This gives unique immediate feedback to simple questions.

Surveys for
**customer
convenience**

Analyze feedback data through Spectra Insights.

Analyzing your customer feedback data is key to improvement. For this you can use the Reports module in Spectra. These modules offer several predefined reports tailored for customer feedback data allowing the user to explore and evaluate the data at the different hierarchy of regions and branches to compare their performance.

Impact

- > Monitor customer arrival rates.
- > Organize the customer flow.
- > Real-time monitoring of staff and branch performance.
- > Manage offices from a centralized location.
- > Smarter data-driven commercial decisions.
- > Improve brand relevance.

B Portfolio..

Customer Satisfaction Survey shows that our clients labelled us as Excellent in the level of service & products.

Services & Solutions

Smart Business Devices Provider..

We have gained a decent market share and became a stubborn competitor to the major suppliers in the region and **ranked us as their main supplier due to the methodology of our SLA** (service level agreements) in high support & speed of response after launching the **Accredited Service Center** which fulfils the above principle.

Our consulting team with business partners has the experience and expertise to customize the devices (**Custom-made**) as per the customer's need to achieve impressive results.

And more..

**We'll Never Give-up
Achieve & Success**

Business Management Solutions Provider..

We have gained an impressive reputation, and they were called us the creativity and innovation team. Since **we stop optimizing for programmers & started optimizing for users to keep our clients on track to improve the workflow in the operations.** Therefore, we create enterprise solutions to redesign the **digital backbone** of organizations to help them achieve digitization solutions targeted, without burning a hole in their pocket.

Also, since 2008 and for seven years later without interruption and without the slightest competition, we have been the pioneers of this service after

we are **accredited (2007) in the MOSAL / Kuwaiti Cooperative Societies sector to provide consultancy and supervision services for IT projects** since we stopped the IT contractors from optimizing in the programming and we redesigned their software digital backbone to let him focusing and optimizing for the users.

Since we are present our MeCloudy solutions, and the reason for no need for future conflicts of interest, we stopped this activity because we are considered the principles of professional work from business ethics.

And more..

MeCloudy
Control & Expand..

We'll Never Give-up
Achieve & Success

Managed Services Provider – MSP..

For more than **Seventeen years**, we have been successfully **delivering our services** with distinction **as** a Professional Managed Services Provider. During which we were able to **prove our conviction** in many administrative, legal and accounting procedures and develop them to achieve the goals of the service. It was an **ideal solution for the banking sector**, and this is what has allowed clients to classify us as a **Major Service Provider** today.

And more..

Legal regulations - Methodology – Policy & Procedure
Operation Team – Fees & Wages

We'll Never Give-up
Achieve & Success

B FastTrack Services..

In accordance with our **strategy for dealing** with projects with clients and our belief that deciding where to **spend capital** has **significant risks** in impacting revenues, savings and profit potential. Therefore, we have **succeeded in several large projects** in cooperation with our clients, supporting their projects implementation, **by providing financial facilities that benefit both parties** in accordance with our policy regarding financial transactions and investments that comply with **Kuwait standards** of law and within the limits of **Islamic Sharia**. Therefore, we invested in launching new services **(2022)** for **financial facilities for projects** and **resellers program** that support our expansion in KWT & GCC market.

**Trust is built when
confidentiality
is respected**

**Pay as you Go
Add as you Grow**

:11

The Social Responsibility..

Profit is Not Above All Else..

Social responsibility is substantially important to us, therefore we are not always seeking profitable investments but also contributing to the welfare of society and the environment.

Bus3s basic convictions are to enact policies that promote an ethical balance between the dual mandates of striving for profitability and benefiting the whole society which will affect future generations.

Social responsibility not limited to maximize Bus3s numbers. Thus, we worked hard to develop our product strategy to make it an integral part of our business models without compromising profitability and while lessening negative impacts on them. Hence, we try to act responsibly in many ways, such as the following:

Social Responsibility for Society:

- Health promotion through Bus3s yearly marathons.
- Promoting volunteering (Part-time Jobs).

Our Services & Solutions cultures:

- A serious plan that aims to reduce paper using within five years through our systems to be less than 20% to making changes that benefit the environment (Green Technology).
- We produced new systems (Self Service) in cooperating with POSIFLEX Technology, Inc. devices to be more sustainable for using without Infections.

PROFIT IS NOT ABOVE ALL ELSE
